Listing of Claims (continued):

[c5] A method of continuing the effects of the anticholinergic shot described in claim 1, claim 2, claim 3 and claim 4 by concomitantly prescribing any combination of scopolamine patches, scopolamine tablets, belladonna tablets, hydroxyzine tablets, probanthene tablets using accepted pharmacological principals.

[c6] A method of decreasing anxiety associated with nicotine withdrawal after the anticholinergic shot described in claim 1, claim 2, claim 3 and claim 4 by utilizing hydroxyzine, benzodiazepines or clonidine.

[c7] A method of disassociating the habits of smoking by implementing a behavioral modification program and / or hypnosis via individual or group counseling, video, CD, DVD, streaming video or audiotape prior to, or after receiving the anticholinergic shot described in claim 1, claim 2, claim 3 and claim 4.

[c8] A method of helping reduce the psychological dependence on nicotine by counseling after administering the anticholinergic shot described in claim 1, claim 2, claim 3 and claim 4, utilizing telephone conference calls, internet discussion boards, internet chat rooms, group meetings and / or individualized telephone follow up.

[c9] A method of helping reduce the physiological and psychological dependence on nicotine by using antidepressants such as serotonin reuptake inhibitors, bupropion, or buspirone prior to or in conjunction with receiving the anticholinergic shot outlined in claim 1, claim 2, claim 3 and claim 4.

Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

Respectfully submitted,

Kirk G. Voelker M.D.
